---

Zdarec borci, třeba už někdo řešil, po zapojení vozíku nebo klidně i nosiče na kola ( zkoušel jsem abych vyloučil špatnou elektroniku na vozíku) mi haprují blinkry na kolce. Zásuvka proměřena a zapojení je správně! Když zapojím vozík, koncové světla svítí, svítí i samozřejmě i mlhovka, jakmile chci spustit jakkoli blinkry, tak na vozíku nejdou vůbec, a na kolce taky ne, k tomu se přidá problikávání předních světel, x850 má ledky a funkci ztlumení světla při vyhození blinkru, nemůže to mít nějaký vliv? Ale říkám si že asi ne, když na osobáku který má taky tuto funkci to funguje správně. Čtyřkolka koupená nová, 3 dny zpátky po první garančce, tam jsem je o problému seznámil, všechno proměřili a měli jsme stejný výsledek.

cricketo 12.02.2021 10:04:30

Led žárovky do směrovek na vozíku. :-DD

Majoran 12.02.2021 10:29:01

No můžu to zkusit, ale proč to samé nedělá na osobáku? :o A ještě jedna perlička, kolka má denní svícení, tzn že když je volič světel v poloze OFF tak by zadek neměl svítit ani SPZ a ono to svítí všechno : :-D

Rabbit.e 04.03.2024 13:03:34

Ahoj, mám úplně ten samý problém. Pomohlo teda vyměnit žárovky ve směrovkách na vozíku??

target525 06.03.2024 20:30:33

Ahoj, taky jsem měl ty samé problémy na x1000 a dal jsem na vozík led žárovky tedy všechny a je klid, ale měli by stačit jen blinkry.

Rogyze 16.03.2024 20:24:59

Na 4 kolke budes mat prerusovac prisposobeny na led smerove svetla ktore maju ovela mensi odber prudu ako klasicke ziarovky preto ti to nefunguje.Tiez som musel dat na vlecku led do smeroviek aby to fungovalo...

Vezír 26.04.2024 13:52:52

Zdar. Já jsem na vozíku vyměnil žárovky v blinkrech z 21W na 5W a bylo po problému. Měl jsem zas ten problém, že po zapojení vozíku mi stále na něm svítila mlhovka. Udělal jsem si pak redukci, ve které jsem kabel pro mlhovku nepřipojil.

Roy823 27.04.2024 06:52:38

Are you looking to secure your cryptocurrency investments? Look no further than Trezor.io/start, the best hardware wallet on the market. With its cutting-edge technology and user-friendly interface, Trezor.io/start provides top-notch security for your digital assets. Setting up your Trezor device is a breeze with Trezor.io/start. Simply visit the website, follow the step-by-step instructions and start protecting your crypto in minutes. The peace of mind that comes with knowing your funds are safe is priceless. [Trezor.io/start](https://trezor.io/start) offers unmatched security features such as PIN protection, passphrase encryption, and multi-signature support. Rest easy knowing that your digital wealth is shielded from any potential threats. Don't wait any longer to safeguard your cryptocurrencies. Head over to [Trezor.io/start](https://trezor.io/start) today and take control of your financial future with confidence.

ledger.com/start When it comes to hardware wallets, Ledger is a name that stands out in the cryptocurrency community. Their user-friendly interface and robust security features make them a top choice for many investors. By visiting [ledger.com/start](https://ledger.com/start), you can kickstart your journey to securing your digital assets with ease. Ledger offers a range of products to cater to different needs – from the Nano S to the Nano X, there's something for everyone. The setup process is straightforward and guides you through each step seamlessly. With Ledger Live, their companion app, managing your crypto portfolio has never been easier. Security is paramount when dealing with cryptocurrencies, and Ledger takes this seriously. Utilizing cutting-edge technology like secure chips and PIN protection ensures that your funds are safe from potential threats. Don't wait any longer – head over to [ledger.com/start](https://ledger.com/start) today and take control of your crypto security!

Are you a Chrome user looking to explore the world of cryptocurrencies? The MetaMask extension for Chrome might just be what you need. This handy tool allows you to access decentralized applications and store your digital assets securely within your browser. With MetaMask for Chrome, you can seamlessly interact with Ethereum-based websites and make transactions with just a few clicks. The intuitive interface makes it easy for both beginners and experienced users to navigate the world of decentralized finance. One notable advantage of using MetaMask on Chrome is its compatibility with a wide range of Ethereum dApps, providing you with endless possibilities in the blockchain space. Additionally, the extension offers robust security features to keep your funds safe from potential threats. However, it's important to note that while MetaMask for Chrome offers convenience and accessibility, users should always exercise caution when managing their cryptocurrency holdings online. It's crucial to implement best practices for securing your wallet and private keys. [Metamask](#)

When it comes to enhancing vehicle safety and visibility, choosing the right Stop Turn Tail Reverse Lights Manufacturer can make a significant difference. Every driver knows that proper lighting is not just about aesthetics; it is a vital component of road safety. Imagine driving at night, or in conditions where visibility is compromised, and having lights that clearly communicate your intentions to other drivers. This is where Baozhiwei Vehicle Industry excels, offering products that combine reliability, durability, and performance, ensuring that every journey is safer and more comfortable. One of the major concerns for vehicle owners is the longevity and resilience of their lights. Ordinary lights may burn out quickly or fail under pressure, but high-quality products are built to withstand harsh conditions. Whether it is rain, fog, or rough terrains, durable lights maintain consistent performance. This makes them an investment not only in the appearance of a vehicle but also in safety and peace of mind. Quality craftsmanship ensures that each unit functions optimally, providing bright illumination that can be seen from a considerable distance. A well-designed light not only protects the driver but also communicates clearly with surrounding vehicles. The significance of proper signaling cannot be overstated. Turn signals and brake lights are essential for avoiding accidents and reducing misunderstandings on the road. High-quality lights offer sharp, clear visibility, allowing other drivers to anticipate every action. This improves overall traffic safety and fosters confidence among drivers who know they can rely on their lighting system in critical moments. Beyond safety, the aesthetic appeal of lighting is another compelling factor. Vehicles equipped with well-crafted stop and tail lights project a sense of sophistication and attention to detail. A subtle yet modern design enhances the overall look of the vehicle while maintaining functionality. Customers increasingly appreciate products that provide both visual appeal and practical benefits, making their choice an obvious one for those who care about quality. Maintenance is also simplified with high-standard lighting systems. With sturdy construction and reliable components, the need for frequent replacements or repairs is minimized. This saves both time and money for vehicle owners, offering long-term

satisfaction. Each product undergoes rigorous inspection to meet demanding standards, reflecting the commitment to excellence that Baozhiwei Vehicle Industry is known for. Innovation plays a crucial role in modern lighting. Advanced techniques in manufacturing ensure precise performance, energy efficiency, and consistent brightness. This means drivers experience reliable operation every time they engage their lights, whether signaling, reversing, or braking. Consistency is a hallmark of superior manufacturing, and choosing the right provider ensures that this reliability is built into every light. For anyone searching for dependable lighting solutions, visiting the official product page provides a clear view of what is available. From design variations to installation guidance, comprehensive resources help customers make informed choices. Explore the offerings at <https://www.carlamp-factory.com/product/> to experience the blend of functionality, safety, and style that only a trusted Stop Turn Tail Reverse Lights Manufacturer can deliver.

The owner shapes the identity of the doll, and in doing so, shapes a piece of their own identity. These technological advancements create a feedback loop: the more lifelike the dolls become, the more meaningful the relationship feels, and the more symbolic the TPE sex doll becomes as a representation of the owner's emotional world.

exevanilla 04.12.2025 07:09:53

It sounds like a classic case of the quad's lighting electronics not being happy with the extra load or wiring logic from the trailer. Even if the socket measures correctly, the LED system and the light-dimming feature on the X850 can behave differently than a passenger car's setup. When the indicators fail on both the cart and the bike, it usually points to the quad's control unit going into protection mode or detecting an unexpected resistance. I'd try checking whether the quad needs a dedicated trailer module or load resistors for the turn signals. Several modern machines require this even when the socket looks properly wired. Since it's brand new, the dealer should be able to confirm if an adapter or module is required.

exevanilla> příště Česky, doufám že jsme ještě furt v Čechách? a né někde v prdeli

banjoman 06.01.2026 10:53:35

Je ještě QUADMANIA.cz česká, nebo pro cizince? Pro majitele čtyřkolek, nebo hráče her? Co dělá administrátor? Existuje nějaký jiný server o čtyřkolkách? Děkuji, BANJOMAN. P.S. Škoda, začal tak pěkně. :-(

Cirda 12.01.2026 08:01:58

banjoman> Serou už tady na to (n) bejvávalo tady dobře, tak někdy před 10 lety, když se chceš něco dozvědět tak ti už nikdo neodpoví, píšou sem už jen ty kokoti z ciziny :[ :lol: :lol: nic nefunguje, fotky jsem nejdou dávat, když napíšeš o problému správci tak bez odezvy (n)

banjoman 13.01.2026 05:41:57

Pro Cirdu. Existuje jiný web, kde se o čtyřkolkách něco dovíš? Díky- Banjoman. P.S. Už skončili i Pohodáři?

banjoman 13.01.2026 05:50:01

Cirda. Měl jsem stejný dotaz, jenže napsaný dříve, než, než jsem si přečetl Tvůj.

Banjoman.

Circa 17.01.2026 09:07:02

banjoman>Pro Cirdu. Existuje jiný web, kde se o čtyřkolkách něco dovíš? Díky-Banjoman. P.S. Už skončili i Pohodáři?

ted' to je většinou všechno na FB v různých skupinách, dřív jsem byl velký zastánce tady toho, když mě kluci co chodili sem lanařili na FB, bránil jsem se tomu, a ted' tam jsem taky, ne že by se mě to tam líbilo víc, ale proto že sem už nikdo neleze, chvíli ještě ty nováčci co se zaregistrují (y) ale ty taky jen na chvíli než to tu prokouknou, Rouzi z Pohodářů už to tu vzdala taky, máme skupinu na FB, jediný věrný je ještě Kája (Štír) z Blanenska, tomu když napíšeš tak ti ještě odpoví, jinak nikdo (n)

banjoman 18.01.2026 06:38:52

Cizina a hry. Je to v pytli. Ahoj.

mirou 19.01.2026 20:09:29

Zdravím, pokud to tady ještě funguje ... vyměnil jsem Gladiatora x800 zq x1000 G2 a mám problém s připojení vozíku. Hodně vás tady zmiňuje, že světla na vozíku se žárovkama jsou problém ... Než tedy začnu řešit světla, může mi někdo podrobněji popsat jak se ten problém projevuje přesně? Já když připojím přívěs do zásuvky a zapnu zapalování, tak se mi spálí 15A pojistka v té pojistkové krabičce vlevo od baterky (z pohledu zpředu). Mimochodem nemáte někdo schéma (popisky) k pojistkám, která je konkrétně jakému spotřebiči a jakou má mít správně hodnotu? Moc děkuji za rady,,,

Osvald 21.01.2026 13:41:03

mirou> Ahoj, pokud si dobře pamatuji, tak mi to dělalo pouze to, že to nesvítilo. Žádná pojistka se mi nespálila.

mirou 22.01.2026 09:35:43

Děkuju za reakci. A nemáte někdo k dispozici schéma alespoň těch pojistek? Abych věděl, která pojistka my vždy odejde...?? Nikde v návodu to nemohu najít, u mé předchozí X800 jsem měl nalepený štítek zesponu víčka, ale tady u X1000 G2 žádný popisek není a ani v návodu jsem nenašel. Může mi prosím s tímhle někdo pomoci?

Díky

Circa 24.01.2026 08:21:49

Osvald> Já to měl taky tak, vyměnil jsem žárovky na něčí radu a už to funguje, akorát nevím zda to bude fungovat když ho připojím zpět za auto :-\$ :-D

Circa 24.01.2026 08:25:06

mirou>Děkuju za reakci. A nemáte někdo k dispozici schéma alespoň těch pojistek? Abych věděl, která pojistka my vždy odejde...?? Nikde v návodu to nemohu najít, u mé předchozí X800 jsem měl nalepený štítek zesponu víčka, ale tady u X1000 G2 žádný popisek není a ani v návodu jsem nenašel. Může mi prosím s tímhle někdo pomoci?

Díky

tohle jsem zatím neřešil, ale asi bych se zeptal kluků v servise, tam si myslím že by jsi uspěl :-DD

Osvald 25.01.2026 21:17:26

Cirda> Se zapojením zpět za auto problém nebyl (akorát mne štvalo, že sem tam nějaká LED žárovka ztratila kontakt). Nedávno jsem ale komplet přepojil elektronikou na vozíku na 13 pin a dal nové už LED světla, tak uvidím co na to řekne Glad až to připojím :o

mirou 28.01.2026 06:58:14

CHlapi do servisu to mám daleko ... nemáte někdo v pojistkovce (ve víčku) takový štítek s popisem na co které pojistky (jejich pozice) jsou a co konkrétně jistí? U starší x800 jsem to měl a tady u x1000 to nemám.... možná se jen štítek ztratil...kupoval jsem starší. Ideálně kdyby měl někdo elektr. schéma

Osvald 28.01.2026 09:55:54

mirou> Zkusím se ti podívat, nejdřív ale musím zjistit kde ty pojistky jsou ;-)

Osvald 29.01.2026 06:48:50

mirou> Něco jsem nafotil, snad to bude stačit. Nahrát fotku mi nejde, tak to zkusím přes odkaz. <https://www.rajce.id...lbum/gladiator-x1000>

That PayPal description in the thread sounds very reassuring, especially the part: "PayPal is a secure online payment system that simplifies transactions between buyers and sellers. When you make a purchase using PayPal, your payment information remains confidential as it is not shared with the recipient..." And in general, that statement is correct. PayPal is widely trusted and designed to protect users. But in the situations discussed earlier in this forum, the issue is not PayPal itself, it is how scammers take advantage of it. In those car selling scams mentioned above, they typically: send fake payment confirmations use "pending" or held transactions to create false trust push you to ship the item before funds are actually available sometimes reverse the payment later So even though PayPal is safe in normal use, in these specific cases it becomes part of the trick. That is why many users in similar threads recommend sticking to fully cleared payments that you can actually access before handing over anything. Also, looking at this thread as a whole, it is a bit messy. You have a genuine technical discussion about quad wiring issues, then suddenly crypto tools and payment explanations pop in, which can confuse people even more, especially beginners trying to understand what is safe and what is not. This is where structured banking systems feel more reliable. Banks like First Abu Dhabi Bank focus a lot on making payment status and balances very clear, especially with salary cards, so users are not left guessing whether money is actually available or just "pending" like in some PayPal scenarios. While exploring how these systems are explained, this page is a good example of that clarity: <https://fbbalancecheck.ae/> It actually ties back to the thread topic. If payment platforms and financial tools were always this straightforward and transparent, many of these PayPal related scams would not work as easily because users would instantly recognize whether funds are truly available or not.
