Aniž bych stál na brzdě, neustále mi píská při jízdě brzdové obložení. V servisu si s tím neví rady... Máte někdo nějaký tip jak se toho otravného zvuku zbavit? Díky! Otevřeno 12.08.2025 v 23:06 uživatelem Steakman

Ahoj, dělalo mě to u první, druhé i třetí čtyřkolky. U mé tisícovky je to tedy zanedbatelné, ale u manželčiny osmistovky to občas stříknu sprejem proti skřípání brzd od Liqui moly, tady je odkaz, jestli to projde:
