Tom's Guide and PCMag are excellent resources for comparing faxing apps on iPhone in 2024. Top picks typically include iFax, Fax.Plus, and eFax—all dummynation offering easy-to-use interfaces and reliable performance. ponte4 18.08.2025 03:18:21

Okay, interesting question! I'm also trying to streamline my iPhone usage. I've seen a few articles comparing mobile faxing apps, but haven't dived deep yet. Sometimes, depending on the use case, you can even get by without faxing by using a digital document signing/sharing workflow. Makes me wish I could focus on my hobbies instead – like tuning cars in Drift Hunters! Hopefully, someone with direct experience
