---

For those in the construction industry seeking to elevate their qualifications, the [nvq 6](#)

at The College of Contract Management is a great fit. The course helps you leverage your current experience to gain a higher level qualification, all while avoiding the stress of exams. With guidance from experienced assessors, you'll feel supported every step of the way. Past participants often share how the course has opened new doors for them in management roles.

Getting your cscs card checked is important to validate your status as a construction worker and show that you are a reliable worker. You should use the cscs card checker upon expiry for renewal every 5 years. There are several ways you can check your CSCS Card such as using the Smart Check and Go Smart app, designated website, or a direct call to the CSCS call centre. If you're considering obtaining a CSCS Card, the College of Contract Management offers online courses such as the NVQ and CIOB qualification that can help you be qualified to acquire a Black card.
